

HOW TO MEASURE: ADDING GLASS TO YOUR EXISTING DOOR

We would be happy to come and measure for you but if you'd like to measure your door on your own, use this guide to record your measurements in inches. For double doors, simply measure your active/main entry door. For sidelites, measure one of the sidelites using steps 5 and 6. Once you are done, please email us with your measurements and feel free to include a photo of your door!

- 1 Width of the door _____ inches
- 2 Height of the door _____ inches
- 3 Full width of the panels _____ inches
- 4 Full height of the panels _____ inches
- 5 Width of the sidelite (exposed glass only) _____ inches
- 6 Height of the sidelite (exposed glass only) _____ inches

CIRCLE

The type of door configuration you currently have.

HOW TO MEASURE: REPLACING GLASS IN YOUR EXISTING DOOR

We would be happy to come and measure for you but if you'd like to measure your door on your own, use this guide to record your measurements in inches. For double doors, measure the exposed glass in your active/main entry door. For sidelites, measure the exposed glass in one of the sidelites using steps 5 and 6. Once you are done, please email us with your measurements and feel free to include a photo of your door!

- 1 Width of the door _____ inches
- 2 Height of the door _____ inches
- 3 Full width of the exposed glass only _____ inches
- 4 Full height of the exposed glass only _____ inches
- 5 Width of the sidelite's exposed glass only _____ inches
- 6 Height of the sidelite's exposed glass only _____ inches
